Subscription \$4.00 per year, in advance.

St. Johns, Thursday, May 14.

EVERYBODY seems to be howling about Bayard, the Presidents premier. Whats the matter with Bayard, is his grammar bad, or as Daniel Webster once said it is a "nomination not fit to be made" that ails him. Mr. Vilas has made some improvement since our last notice of the Cabinet, and Nicholas Bidle Manning is getting his work in splendidly. Now, soon as we hear from Whitney and Garland on the situation, we shall be happy.

ELDER Morgan, President of the Mormon Church in the Southern States, expresses entire satisfaction over the progress of the Church in that country. They now have sixty-five elders constantly at work in the South Atlantic States, and he says more converts are being secured than in any previous year. It is expected fully seven hundred will leave the South for Utah and Colorado this year. [Pioche Record.]

What class of people is Elder Morgan trying to fool in the southern States? Certainly there are no intelligent white people that contribute to his satisfaction. Polygamous doctrines would meet with a Tennessee reception in any of the Southern States.

Much dissatisfaction is occasioned among cattle men by the announcement that ranch owners in North Texas will prevent cattle from South Texas crossing the Texas and Pacific track. Lately there has been a large move of stock northward across the track, some of which were destined to the Panhandle and some to Northwestern Texas territory, and should the determination of the North Texas cattle men be enforced great loss and inconvenience will be occasioned. Attempts to resist this transit will doubtless cause serious trouble. The grass north of the track is more luxuriant than that south of it. [Globe-Democrat.]

The Albuquerque Journal asks: "When do the authorities of Arizona propose to wipe out Mormonism in Apache County?"

We answer, that Arizona proposes to rid this county of the last one of all these law defying polygamists before the holy, pious and devout catholics of New Mexico shall commence proceedings in the correction of her own corrupt cranies; the purification of her own sinks of filth; her own pernicious pools; her own nests of nastiness and moral nauseness. Has it ever occurred to the righteous New Mexican that there is a "buzzards roost" in Valencia county known as Sevoia; that there is no fouler or more pestiferous repository of licentiousness known to exist in any state or territory in the Republic, under the cloak and claim of religious devotion.

Arizona and particularly Apache County is thankful for the aid, encouragement and sympathy of New Mexican friends, but it would be better satisfied to have them come with clean hands as well as pure hearts. What has occupied your heavenly minded U. S. Marshal; what is it that holds your U. S. Commissioners and your U. S. District Attorney; your Judges and your Grand Juries, that Tietjen, Sevoia's polygamous monster, has not long ago repented of his ways, or been incarcerated with his less criminal brethren in Yuma, Detroit and other reformatories prepared for the devil and his angels.

To you brethren of New Mexico we send forth the Macedonian cry, come over and help us! But come over clean roads and through purified districts, and you will do us good.

AND now Milton Musser has been convicted, at Salt Lake City, for violation of the laws of the United States and of the highest civilization known on earth, in that he has been duplicating his wives—guilty of the crime of bigamy—living with more than one woman, as husband and wife; openly and defiantly setting at naught the respect for the teachings of the best governments that have come to us as an inheritance for the past two thousand years; in that he would wrap around him the "Livery of the Court of Heaven to serve the Devil in" and by his unlawful and treasonable acts in enticing others to disobey the laws. These are some of the many crimes committed by this hypocritical sensualist who blasphemously states that he is happier in suffering for God's sake than he would be in the full enjoyment and carnal embrace of his manifold betrayed women. We trust that this last lie will not cause leniency on the part of the court, but that the full penalty of an outraged law will be awarded him. In this connection we copy from a telegraphic report to the Albuquerque Journal, on Sunday last, the following resolutions which were passed by a set of men and women, some of whom may be mono-maniacs, it is only charitable to think so, some scoundrels as bad as Musser himself and some ignorant fools, all of whom deserve to be arrested and placed in asylums that are fitted for their several conditions:

"Whereas, our most worthy esteemed brother, A. M. Musser, by loyalty to the commands of our heavenly father, by his provident paternal care of his family, has brought himself under ban of an unconstitutional act of congress called the "Edmunds law," by a system of espionage instituted by corrupt federal officials, in which apostate traitors, gutter-snipes and the like were employed, has been arraigned in federal court, tried by a packed jury, and through force of arbitrary indicative ruling without any evidence to sustain the charges preferred against him, has been found guilty and now awaits the sentence of the judge

Resolved, that we few, his brethren and sisters, having noted his unflinching integrity under the dire evils, and in the face of the most cruel injustice feel to commend in highest terms of his conduct, true integrity and fidelity to home and family; his love for principles, liberty, freedom, religion and conscience, as guaranteed by the constitution of the United States, and while we sorely regret to see the innocent suffer, and wicked rule inflict its injustice on our brother, we realize he suffers for righteousness sake, and a volume of our prayers ascend to the omnipotent preserver in his behalf, and by our faith and prayers, will ever sustain him."

The Globe Democrat has it that Illinois will send General John A. Logan to the senate. The question is settled for the next six years. Everybody seems to be happy. Politically, with the American people, whatever is, is right. It was so when the announcement was made to the American people that Grover Cleveland would hold the reins of government for the ensuing four years. It was so when the defeat at the polls of James Gillespie Blaine was telegraphed from one end of the Union to the other. That is the beauty and excellence of our Republican style of doing things—the effect of proper public representation. We may change our laborers, but our work, never; a government for the greatest good of the greatest number needs no standing army to sustain it. The will of the people as expressed by an honest vote is our stronghold; it is our army of moral force that is more effective than steel plated monitors and gatling guns. Hurrah for the Union, hurrah for Illinois, and hurrah for the man of her choice.

At a meeting of the Pima County Ranchmens' Association, held in Tucson on the 5th inst, the secretary was instructed to withdraw all brands and advertisements of the association from the Southwestern Stockman, a live-stock journal published at Wilcox. The association has selected the weekly issue of this Tucson Tailings, Beef and Bullion, as their official organ.

The Polygamist must go.

"COLONEL REED, of the St. Johns HERALD wants to know what will become of the 20,000 Mormon women when their polygamous husbands are put in the penitentiary."

The Albuquerque Journal of May 10th, makes scarcely enough reference to our article, published May 7, to give the public intelligent thought upon the subject. Men convicted for the practice of polygamy have been sent to the prison at Yuma, have been confined at Detroit, and in various prisons and penitentiaries for bigamy, polygamy, unlawful cohabitation, or whatever it may be determined, in violation of the law. As their crimes imply, they have families that should be cared for. Is it not just that the Mormon church should be compelled to support these people by special taxation. That church is responsible for polygamy in the past and should be made solely to come to the rescue now.

THE resources of civilization have been brought into service in the case of Maxwell, the St. Louis murderer, who is on board a steamer bound to New Zealand. A cable message has been sent from St. Louis, via England, Portugal, the Mediterranean, Arabia, India, Australia and New Zealand to the Auckland authorities, at a cost of about \$3.50 per word, or several hundred dollars altogether, and if it retains any of its original meaning after this trip of 16000 miles through all these strange countries there is little doubt that Maxwell will be in the lock-up within an hour after the ships arrival at Auckland.—Phenix Gazette.

Mr. Maxwell will have to double his road. The style of murder he introduced in this country at the Southern hotel, St. Louis, must be frowned down by hanging him up, or, as Aminabad Sleek appropriately put it, "If this thing be encouraged they'll be all sorts of people chloroformed and shut up in packing trunks."

SAN FRANCISCO, May 7.—This afternoon Charles Ashton, a real estate broker, was shot in his office by Captain I. L. Eagan.—Cochise Daily Record.

The shooting of Charles Ashton on the 7th inst. by I. L. Eagan, because of a legal contest over certain rights in the old Dashaway Hall property, should bring down upon the head of the would be assassin the highest penalty known to the law.

Mr. Ashton may or may not die from the wound or wounds he received, but it can only be regretted that the Captain (?) who is said to have swallowed strychnine immediately after his attempt at murder, had not been forced to swallow an extra ounce to make his election to hades sure.

KINGSBURY Rules in Washington:—Col. Deahenas, timber agent, Carson City, skipped into the ring at Commissioner Sharks office on Saturday last and called for settlement with hard gloves. Shark not in proper condition, refused the contest. Deahenas, determined, forced the issue. Shark enraged lit upon timber agent's throat, scattered the buttons from his official coat like sparks from a welding heat, pushing his advantage while yelling for help.

Round first declared for the Shark. Time called, Shark skips up a little giddy; Deahenas seen in the distance on the avenue, his time 15 miles an hour—shouting police!!

THE term of Col. Adrean, the Baltimore postmaster, will soon expire, and his friends have gone to work to secure his re-appointment if possible. They say he is in every respect as efficient an officer as Pearson, and just as little of a partisan, while he has an additional claim to consideration in fact that he was a gallant soldier in the Union Army. Col. Adrean will very likely have to go, however. The President has explained, we believe, that the re-appointment of Pearson was made in fulfillment of a special obligation to certain New York newspapers, and not for the purpose of promoting the cause of civil service reform.—Tombstone.

Turn the rascals out! What right has a soldier along side of a New York dude.

The cattlemen of Texas are thoroughly discouraged. The quarantine laws of Kansas, Colorado and New Mexico have killed the cattle business of that state. Yearlings are offered at \$6 a head. The best cow ponies are worth only \$25 a head in San Antonio. Five or six thousand head of horses will be shipped to Dodge City.—Las Animas (Col.) Leader.

The Paper World says the ten plagues of a newspaper office are bores, poets, cranks, rats, cockroaches, typographical errors, exchange fiends, book canvassers, delinquent subscribers, and the man who always knows how to run the paper better than the editor does himself.

A letter to a gentleman in Tucson from a leading cattlemen of Cochise county, announces that a large number of Texas cattle are on the way to this Territory, and that the owners express the determination to bring them in "if revolvers can do it."—Tailings.
